

LoCP of EURAXESS Bulgaria Technical University of Varna, Bulgaria

-
- The Technical University of Varna has been part of the Bulgarian network of EURAXESS since 2004
 - Originally a regional centre for mobility of researchers was established at the university covering the Eastern region of Bulgaria (the cities Varna, Burgas, Shumen and Dobrich).

In 2010 in accordance with the adopted new structure of EURAXESS Bulgaria the regional centre at TU Varna was transformed into a Local contact point (LoCP).

EURAXESS Bulgaria

Main activities:

- provision of detailed and up to date information about the European policies and programmes in the field of research, funding opportunities (scholarships and grants) for incoming and outgoing scientists at different stages of their career

- provision of assistance to the incoming researchers and their families in the planning and organization of their stay in Bulgaria (on issues such as accommodation, medical care, visas, social security, language courses, etc.)
- collaboration with foreign and Bulgarian universities, institutes and research organizations

- facilitating the collaboration between academia and industry
- consultations and dissemination of information about scholarships, conferences, seminars and trainings in Bulgaria and abroad

- provision of administrative services and assistance to foreign guests of the Technical University of Varna

-
- In 2011 the LoCP of EURAXESS at TU Varna has rendered assistance to 5 foreign researchers from Romania (PhD students) and 3 Bulgarian scientists from the Technical University of Varna (2 PhD students and one assistant professor).
 - All researchers were early stage researchers with less than 10 years of experience.

- We work in close cooperation with the Bridgehead organization of EURAXESS Bulgaria -Sofia University “St. Kliment Ohridski” represented by Ms. Svetlana Dimitrova.
